Summary

Full-stack developer with a strong focus on cybersecurity and a passion for building secure, scalable applications. Adept at identifying vulnerabilities and implementing robust security measures, I bring a unique perspective to problem-solving and innovation. Thriving in collaborative environments, I combine technical expertise with strategic insights to deliver cutting-edge solutions that prioritize both functionality and security.

Education

Malla Reddy University <i>B.Tech</i>	Hyderabad 2022–2026
Sri Chaitanya Junior College <i>Intermediate</i>	Hyderabad 2021–2022
Sister Nivedita School <i>School</i>	Hyderabad 2008–2021

Experience

Nodwin DreamHack <i>Volunteer</i>	Hyderabad Nov 15 - Nov 17
◦ Designed and conducted interactive workshops at BYOD events, educating 150+ students on secure device usage and data protection, resulting in a 40% improvement in responsible device handling practices.	

Projects

Deal Buddy: A web scraping tool that identifies discounts on e-commerce platforms by comparing product data, enabling users to find the best possible deals in real time.

Phish Shield: An AI-powered website that detects phishing sites by analyzing their characteristics and provides additional details such as IP addresses and geographical locations.

Wifi Bastion: A WiFi security application designed to scan networks for vulnerabilities, with a particular focus on detecting and mitigating evil twin attacks.

Skills

Languages: Python, Java, HTML, CSS, JavaScript	<i>Proficient</i>
Frameworks: React, Spring Boot, Node.js	<i>Intermediate</i>
Databases: MySQL, MongoDB	<i>Intermediate</i>
Cyber Security Tools: Kali, Wireshark, BurpSuite	<i>Intermediate</i>

Certifications

Salesforce Administrator: Completed training on Salesforce administration and CRM solutions.

Introduction to Artificial Intelligence (AI) – IBM: Completed training on Artificial Intelligence (AI) authorized by IBM through Coursera.

Innovation Ambassador (Advanced Level) Training – MoE's Innovation Cell & AICTE: Completed training on Innovation Ambassador (IA) authorized by AICTE.

Achievements & Interests

Hackathons: Participated in multiple hackathons, gaining hands-on experience in problem-solving, teamwork, and rapid prototyping.

Tech Summits: Attended several tech summits, staying updated with the latest trends and advancements in technology.
